

4. **Marking plates** made from Polyamide 6.6 consisting of 11 marking strips.  
Type 9705 A/5/10 (5 mm spacing)  
for terminal blocks type WKC 1.  
Type 9705 A/6/10 (6 mm spacing)  
for terminal blocks type WKC 2.5.

| Description:                                                                                                                                                                                                                                                                                                                                                | Description:                      | Part no.                       |                               |                                 |

| The Wieland Marcom 2000 is a plotter system that uses Wieland's Windows® based software package to interface with a PC, allowing custom printing on standard Wieland marking tags. These standard marking tags provide circuit identification for Wieland DIN rail mount terminal blocks, rectangular multipole connectors and WEB/WEG electronic housings. | <b>Plotter</b>                    | IP220-WI*                      |                               |                                 |
