

2.4GHz WiFi Antenna

+3dBi Whip Antenna

Features

- Freq Range 2400-2500MHz
- Omni-Directional
- Active gain: +3dBi
- Compact 80mm Long
- Weight 6grams
- Compliant with IEEE 802.11b and 802.11g wireless LANs
- VSWR <2.0
- Vertical Polarization

Applications

- WLAN
- WiFi

Description

A compact Antenna for 2.4GHz / WLAN applications where high performance is required .
