

BF1 Fuses

One Hole BF1 Fuses

## Time-Current Characteristic Curves

## BF1 Fuse Rated 32V

This BF1 fuse is rated at 32V and offers a bolt-on fuse for high current wiring protection. Current rating 23A - 200A; with transparent housing material for easy detection of blown fuses. One-Hole BF1 fuses have a current rating 60-125A.

### Specifications

|                                        |                                               |
|----------------------------------------|-----------------------------------------------|
| Voltage Rating:                        | 32 VDC                                        |
| Interrupting Rating:                   | 30A: 1000A @32 VDC                            |
|                                        | 40A - 150A: 2000A @32 VDC                     |
|                                        | 200A: 1500A @32 VDC                           |
| Recommended Environmental Temperature: | -40° to 125°C                                 |
| Terminals Material:                    | Tin plated copper alloy                       |
| Housing Material:                      | PET-GF33 (U.L. 94 Flammability rating – V0)   |
| Clear Housing Material:                | PES (U.L. 94 Flammability rating – V0)        |
| Mounting Torque M5:                    | 4.5 Nm +/- 1Nm                                |
| Mounting Torque M6:                    | 6.0 Nm +/- 1Nm                                |
| Refers to:                             | ISO 8820-5:2015, UL 248 Special Purpose Fuses |

## Ordering Information

| Part Number   | Rated    | Package Size | Bolt Size | Bolt Hole Qty |

Note 1: Short Circuit Protector only

The typical I²t is an average value calculated from the breaking capacity tests by using the melting time before the arcing occurs.
