

USB 2.0 Cable

USB Type C Plug to Plug

multicompPRO

Description

The Type-C port and connector is about the same size as that of the Micro-B USB connector. Measuring just 8.4mm by 2.6mm. This means it's small enough to work for even the smallest peripheral devices. With Type-C, a USB cable's both ends will be the same, allowing for reversible plug orientation. You also don't need to worry about plugging it in upside down. This specific series of cables allows backwards compatibility to USB 2.0 devices. Transfer rates can top 480Mbps. Connects phone or Macbook® to your legacy USB devices with these cables.

Specifications

Connector A	: USB Type C Plug
Connector B	: USB Type C Plug
USB Standard	: USB 2.0
Contact Resistance	: 3Ω (Max.)
Insulation Resistance	: DC 300V/10ms, 10MΩ (Min.)
Cable Length	: 3ft (914.4mm)
