PCN Date: 08-DEC-21

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description: (Text limited to 120 characters)

Miniature Power PCB Relay MSR V23061:

Description of Changes

Miniature Power PCB Relay MSR V23061: TE will change the cover and base raw material at the PN mentioned within this PCN. We are facing global shortages in resins. To avoid line stops in near future we introduce the alternative material Arnite besides the current resin material Crastin for cover and base of MSR relay. Both materials have the same characteristics and are fully qualified. UL and VDE certificates covering the materials being used. The Arnite material colour appears slightly lighter. The Relay form (dimensions), features and rankings keep unchanged.
