Notes

- All rapid charge methods should be discussed with our engineer.
- We stipulate to charge less than 50% fully power for delivery, if the charge is more than 50%, the battery has a certain latent risk. If the charge requirement is over 50% which caused quality problem, executed after the mutual consultation.
- During storage period the batch battery is requested by the 50% electric charge, the battery storage surpasses 3 months, the recommendations 0.2C discharge to 1V and then add 50% of the electricity storage.
- Our battery guarantee time: 12 months.
