USB POWER

POWERBANKS

USB CHARGERS

CHARGE CABLES

WHAT EXACTLY IS POWER DELIVERY?

Power Delivery is a new quick-charging standard which can deliver up to 100 Watts by means of the new USB Type-C connector. This means that not only small devices, such as smartphones, can be charged via USB Type-C, but that compatible notebooks, for example the Apple MacBook Pro, now no longer require an extra mains adapter.

Please note that the device to be charged and the cable must be Power Delivery compatible.

MAXIMUM POWER!

Power Delivery can **output up to 100 Watts**. This places it far ahead of the competition. Amongst other things, it also enables notebooks to be charged via USB Type-C.

USB STANDARD

60
WATTS max.

18
WATTS max.

12
WATTS max.

IMPOSSIBLY FAST!

Power Delivery charges compatible device **up to 20 times faster** than the USB standard. Here is a comparison of the charge speed for an iPhone XS Max.

iPhone XS Max

1 hour, 45 minutes

1 hour, 50 minutes

USB STANDARD

3 hours, 15 minutes

COMPATIBLE WITH ALL!

With 1-100 Watts, Power Delivery is **compatible with almost any device that can be charged via USB**. Wireless charging can also be speeded up with Power Delivery.

Smartphones
5-18 Watts

Tablets
5-18 Watts

Mobile consoles
10-30 Watts

Notebooks
30-100 Watts

USB STANDARD

EXTREMELY HIGH DEGREE OF SAFETY!

In combination with our devices, Power Delivery offers **5 protective functions**.

Overheating
protection

Overload
protection
(current + voltage)

Deep discharge
protection

Short-circuit
protection

Automatic
shutdown

POWERBANKS

THE NEW ANSMANN POWERBANKS

WHICH IS THE ONE FOR YOU?

With the ANSMANN Powerbank you can find the perfect, up-to-date match. There is a choice of 10 models to cover every need. In order to help customers to find "their" Powerbank quickly and easily, the functions and characteristics are presented informatively and intuitively. The icons and graphics are repeated on the packaging, helping customers to navigate to the most suitable product!

SMARTPHONE CHARGING*

*Basis for comparison: iPhone 8
