

22-Jan-2026

PCN #: P-26-029646

Subject : MULTIGIG Daughter Card Connectors

Description of Change : Dear Customer, because of our continuous effort to improve our process, we hereby inform you about a replacement duplicate stamping tool for the contacts used in the listed part numbers. The validation for this new tool is executed by following a strict procedure, which mitigates risk of negative influence on quality and ability to supply. This is not a Form, Fit, or Function change. An internal release based on our specifications will be executed before any parts are delivered. There is no last date for mix shipment because we will not mix contacts stamped on the old tool die and new tool die in the assemblies. There is no last date for mix shipment because we do not want to mix the contacts in the assemblies from the old die and new die.

Reason for Change: Product improvement.Tool Duplication. Current tool has increasing maintenance requirements and durability issues because of tool age. New tool is needed for efficient continued production.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
