

3 ft Mini USB Cable - A to Right Angle Mini B

StarTech ID: USB2HABM3RA

The USB2HABM3RA 3-foot USB A to Mini USB Cable features one USB A Male connector and one right-angled Mini USB B connector, providing a simple way for connecting your digital camera (Canon, Sony, Hewlett Packard) to a host computer. This USB A to right angle Mini B cable also delivers a cost-effective way to maximize the file transfer performance of your MP3 player, PDA, or digital camcorder.

The right-angled Mini USB connector allows the computer and the connected USB peripheral to be positioned nearly flush against a wall or other surface, by eliminating the space that would typically be required to accommodate a 'straight' connection from the cable into the USB port or peripheral device.

As an alternative, StarTech.com also offers a [3ft USB A to Left Angle Mini B Cable](#) (USB2HABM3LA), which provides the same convenience as this right-angled cable but allows you to connect to your USB Mini-B devices from the opposite direction.

Applications

- Right-angled Mini USB connector allows convenient connections even when space is limited
- Connect Mini USB equipped digital cameras to a host computer

Features

- Durable construction, with high quality USB and Micro USB connectors
- Right-angled Mini USB connector
- Supports high-speed data transfer rates of up to 480 Mbps
