date 09/21/2020

page 1 of 4

**SERIES:** SWI10-N-USB | **DESCRIPTION:** AC-DC POWER SUPPLY

**FEATURES**

- up to 10 W continuous power
- DoE Level VI, CoC Tier 2 efficiency
- ultra-compact case
- universal input voltage range
- no load power consumption < 0.075 W
- integrated USB connector
- over current, over voltage, and short circuit protections
- UL/cUL, PSE safety approvals

**MODEL**

|               | output<br>voltage<br>(Vdc) | output<br>current<br>max<br>(A) | output<br>power<br>max<br>(W) | ripple<br>and noise <sup>1</sup><br>max<br>(mVp-p) | efficiency<br>level <sup>2</sup> |
|---------------|----------------------------|---------------------------------|-------------------------------|----------------------------------------------------|----------------------------------|
| SWI10-5-N-I38 | 5                          | 2                               | 10                            | 300                                                | VI                               |

Notes: 1. At full load, 25°C, nominal input, 20 MHz bandwidth oscilloscope, output parallel with 0.1  $\mu$ F and 10  $\mu$ F capacitors to ground.  
2. CoC Tier 2 compliant

## INPUT

| parameter                 | conditions/description               | min | typ | max   | units |
|---------------------------|--------------------------------------|-----|-----|-------|-------|
| voltage                   |                                      | 90  |     | 264   | Vac   |
| frequency                 |                                      | 47  |     | 63    | Hz    |
| current                   | at nominal input voltage             |     |     | 0.3   | A     |
| leakage current           | at nominal input voltage & frequency |     |     | 0.25  | mA    |
| no load power consumption | at 115/230 Vac, 60/50 Hz             |     |     | 0.075 | W     |
|                           | Level VI<br>CoC Tier 2               |     |     | 0.075 | W     |

## OUTPUT

| parameter       | conditions/description              | min | typ | max | units |
|-----------------|-------------------------------------|-----|-----|-----|-------|
| load regulation |                                     |     | ±5  |     | %     |
| start-up time   |                                     |     |     | 3   | s     |
| hold-up time    | at nominal input voltage, full load | 5   |     |     | ms    |

## PROTECTIONS

| parameter                | conditions/description          | min | typ | max | units |
|--------------------------|---------------------------------|-----|-----|-----|-------|
| over voltage protection  | with zener clamp                |     |     | 10  | Vdc   |
| over current protection  | output shut down, auto recovery |     |     | 4   | A     |
| short circuit protection |                                 |     |     |     |       |

## SAFETY & COMPLIANCE

| parameter         | conditions/description                                              | min    | typ            | max | units      |
|-------------------|---------------------------------------------------------------------|--------|----------------|-----|------------|
| isolation voltage | input to output at 10 mA for 1 minute                               |        | 3,000<br>4,242 |     | Vac<br>Vdc |
| safety approvals  | UL/cUL, PSE                                                         |        |                |     |            |
| EMI/EMC           | FCC Part 15B Class B                                                |        |                |     |            |
| MTBF              | as per Telcordia SR-332, Issue 2, at 115/230 Vac, full load, 0~40°C | 50,000 |                |     | hours      |
| RoHS              | 2011/65/EU                                                          |        |                |     |            |

## ENVIRONMENTAL

| parameter             | conditions/description | min | typ | max | units |
|-----------------------|------------------------|-----|-----|-----|-------|
| operating temperature |                        | 0   |     | 40  | °C    |
| storage temperature   |                        | -20 |     | 60  | °C    |
| operating humidity    | non-condensing         | 20  |     | 85  | %     |
| storage humidity      | non-condensing         | 5   |     | 95  | %     |

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

CUI offers a one (1) year limited warranty. Complete warranty information is listed on our website.

CUI reserves the right to make changes to the product at any time without notice. Information provided by CUI is believed to be accurate and reliable. However, no responsibility is assumed by CUI for its use, nor for any infringements of patents or other rights of third parties which may result from its use.

CUI products are not authorized or warranted for use as critical components in equipment that requires an extremely high level of reliability. A critical component is any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.
