

Data sheet Product WLFT 412 200x200

Accessories for electronic components>Thermal interface material>Thermally conductive foam both sides adhesive suitable for blanks

Features

dimensions:	200x200 mm
version:	non insulating, double-sided adhesive
material thickness:	0.23 mm
material filling:	Aluminiumgeflecht
glue layer:	acrylate (pressure sensitive) double-sided
colour:	grey
thermal conductivity:	1.4 W/m·K
specific thermal resistance:	2 °C cm ² /W
holding force (overlapping):	0.93 MPa
temperature range:	-30°C... +125°C
dielectric strength:	5 kV (AC)
class of inflammability:	UL 94 V-0
type of delivery:	plate
