

C-IP-USB

USB Sync Data Cable & Charger for iPod™, iPad™ and iPhone™

Add sync flexibility to your Apple™ mobile devices.

Do you need a replacement Apple™ Sync/Charger USB cable for your iPod™, iPad™ or iPhone™ device? Are you looking for a longer cable than supplied by Apple™?

The new **C-IP-USB** cable is a totally compatible cable which has a generous 1-metre length, longer than the stock cable supplied by Apple™. The **C-IP-USB** is of course able to charge your existing Apple™ devices when connected to a MAC™, Windows or any other USB powered computer source.

And like the supplied Apple™ Sync cable, the **C-IP-USB** also allows perfect iTunes™ synchronisation, not just for your digital audio collection but also for books, movies and much more.

Ideal for the iPad3™ and suitable for up to the best-selling iPhone4S™, the **C-IP-USB** features similar ergonomics to the stock Apple™ cable but at a much lower price point.

** Not compatible with iPhone5™*

Featuring...

Generous 1-metre cable length – up to twice as long as stock cables!

Charge your iPad™, iPod™ or iPhone™ via USB

Supports all iPod™ generations, iPad™ 1, 2 and 3

Supports up to iPhone4S™ models

Enable fast Sync for iTunes™, Apps and much more

Standard Apple™ connector and markings for total compliance

Shielded cable for improved data transfer at high-speeds

Supports USB2.0 transfer rates at up to 480Mbps

Generic white design to match your existing Apple™ devices*

Robust connectors for long life

Retail blister pack design – ideal for postal shipment

** Not compatible with iPhone5™*
