Datasheet

Ultima A.30

Part No:
A.30.A.301111

Description:

A.30 Ultima Series Low Profile GPS-GLONASS-GALILEO Permanent Mount Antenna

Features:

Height 20.6mm

Diameter 55.4mm

Heavy duty Permanent(screw) Mount

UV and vandal resistant PC housing and thread

IP67 waterproof rated

Cable: 3m RG-174

Connector: SMA(M)ST

RoHS & Reach Compliant

1. Introduction

The A.30 Ultima Series GPS/GLONASS/Galileo Antenna is a low profile combination high performance GPS/GLONASS/Galileo antenna solution for professional telematics applications. At only 21 mm height it is one of the lowest profile antennas in the market, with a diameter of 55 mm. Durable UV resistant PC housing, thread and nut withstands vandalism and direct attack.

Typical Applications Include

- Asset Tracking
- Transportation
- Connected Enterprise

The IP67 waterproof robust plastic body makes it extremely light, economical for shipping and with minimum weight impact on vehicles. This also makes it ideal for use in humid environments such as water pits or marine applications as there are no external metal parts to corrode. The closed cell foam with double-sided adhesive provides a permanent waterproof seal and can adjust to different curvatures, stopping water from leaking under the antenna into the mounting hole.

Cable length and connector is customizable. Contact your regional Taoglas Customer Support Team for more information or installation instructions.

2. Specifications

GNSS Frequency Bands Covered
