Description

The SDM2U20CSP is a 20-volt 2A Schottky Barrier Rectifier that is optimized for low forward voltage drop and low leakage current, housed in a compact chip scale package (CSP) that occupies only 1.28mm² board-space with low profile. The low thermal resistance enables designers to meet design challenges of increasing efficiency while at the same time reducing board space.

Applications

- Blocking Diode
- Boost Diode
- Switching Diode
- Reverse Protection Diode
