Open frame

The AMEOFL3-277HANZ series is one of Aimtec's highly efficient, green 3W AC-DC converter series. It features an ultra-wide input range accepting either AC or DC voltage, high efficiency, compact size in an open-frame, low power consumption and CLASS II reinforced insulation. A variety of EMC external circuits enable this series to meet the needs of multiple industries.

This 3W converter offers great operating temperatures, from -40°C to 85°C and also boasts an isolation of 3000VAC for improved reliability and system safety. Furthermore, a high MTBF of 1000,000h, output short circuit protection (OSCP) and an output over-current protection (OCP) come standard with the series.

All models are suitable for industrial control, electric power, instrumentation and smart home applications.

Features

- Universal Input: 85 - 305VAC/70 - 430VDC
- Operating Temp: -40 °C to +85 °C
- High isolation voltage: 3000VAC
- Low ripple & noise, 150mV(p-p), max.
- Output short circuit, over-current
- Open frame package

1. It is necessary to add C1 between pin3 to pin4
2. It is necessary to add circuit to the output as shown in recommended circuit
3. The layout of the device is for reference only, please refer to the actual product
4. The slots between pin 4 and pin 5 are required for creepage distance consideration.

Recommended EMC external circuit

- With the variable combination of below EMS and EMI circuits which offer the different level of protection.
- The components are the must for typical application circuit in red framed area.
- A suppressor diode (TVS) is recommended to protect the application in case of a converter failure and specification should be 1.2 times of the output voltage.
