

# 10 Port USB C Fast Charger

## TIGER PART: TGR-10P-USB-C

### Features:

- 10 ports x 2.1 amp fast charging outputs
- 100-240vac input
- Charge multiple device and sync data at the same time
- Max. Data transfer rate 480Mbps

### Six Safety Protection System

The Tiger Power range of industrial USB chargers are safety approved and highly reliable, meeting latest level VI energy efficiency legislation. The TGR-10P-USB-C model has 10 ports, allowing for an office or classroom to charge and sync their device at the same time via the 2.1 amp outputs. Suitable for a wide range of applications.

|                                                               |                                               |
|---------------------------------------------------------------|-----------------------------------------------|
| Part number supplied with UK mains cable, data cable and PSU: | TGR-10P-USB-C                                 |
| Part number (No UK cable or power supply) :                   | TGR-10P-USB-C-NCP                             |
| Part number (European cable):                                 | TGR-10P-USB-C-EU                              |
| Input voltage:                                                | 220-240vac (230vac nominal)                   |
| Input frequency:                                              | 50Hz                                          |
| Output voltage:                                               | 5vdc                                          |
| Current:                                                      | 2.1 amps max. x 10 ports                      |
| Power :                                                       | 10 Ports x 2.1A max. Fast Charging (120W max) |
| Powered by:                                                   | Internal high quality power supply (supplied) |
| Dimensions:                                                   | 193 x 80.3 x 24.3mm                           |
| Weight:                                                       | 1100g                                         |
| AC cord length (where supplied):                              | 1.8 metres                                    |
| DC cord length:                                               | Not applicable                                |
| DC connector:                                                 | USB type C                                    |
| Polarity:                                                     | Standard                                      |
| Efficiency:                                                   | 89%                                           |
| Input current RMS Max.:                                       | 2.0A                                          |
| Inrush Current at 230vac:                                     | 120A max. at 220vac cold start, max. load     |
| Load regulation:                                              | + / - 5%                                      |
| Safety approval:                                              | 62368-1                                       |
| M.T.B.F.:                                                     | 50,000 hours (MIL-HDBK-217F) at 25 degrees C  |
| Operating temperature:                                        | 0°C to + 40°C                                 |

# 10 Port USB C Fast Charger

TIGER PART: TGR-10P-USB-C

## Package:

USB-C Hub X 1  
12V/10A Power Adapter x1  
Power Cable x1  
Data Cable x1

Please note a UK mains cable  
will be supplied with this  
unit. No as pictured here
