Item description

Strain relief housing *WINSTA*® MIDI 5-pole

The strain relief housing from the *WINSTA*® MIDI product line is the sophisticated solution for reliable installation. A comprehensive range of accessories complements the *WINSTA*® product line from WAGO. The *WINSTA*® MIDI Pluggable Connection System with Push-in CAGE CLAMP® spring pressure connection technology facilitates precise electrification. Due to the integrated test slot, it is possible to check connections even when they are plugged in. That saves time and reduces installation labor and costs. A range up to 71 mm can be used for the strip length.

WINSTA® MIDI solutions for your electrical installation – maintenance-free

The *WINSTA*® Pluggable Connection System is ideally tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and therefore faster, even more reliable, and error-free. Use of this pre-assembled system reduces assembly times and errors during installation at the construction site. Now you can also reduce installation costs without compromising quality and safety: The *WINSTA*® MIDI accessory reduces the need for servicing and prevents unnecessary downtime.
