

INTRODUCTION

This DIN Rail RJ45 Terminal Block Adapter-Vertical, perfect for simplifying complex wiring, consists of an RJ45 Ethernet jack and an eight-port terminal.

You can connect an RJ45 Ethernet to PCB which can be DIN rail-mounted, easy to use. Then, all 8 wires are broken out into terminal blocks, so without soldering, you can connect and power your sensors, displays, micro-controllers, etc.

FEATURES

- Simplifying complex wiring
- Easy to use

APPLICATIONS

- Connect sensor
- Power display
- Connect micro-controllers

SPECIFICATION

- Color: Green
- Interface: RJ45 eight-core interface
- Material: PVC environment-friendly shell
- Installation: DIN rail-mounted
- Dimension: 90*35*53mm/ 3.54*1.38*2.09"

SHIPPING LIST

- RJ45 Terminal Block Adapter - Vertical x1
