

GNSS Active FPC Antenna

PID: MIKROE-5706

GNSS Active FPC Antenna (W3908B0100) is a reliable and durable flat patch antenna for GNSS receivers, tracking, and location-based services. With a compact size of 20x26.8mm, frequency range of 1.56-1.61GHz, 0.3dBi gain, and omni radiation pattern, this antenna is optimized for efficiency. It has a 50Ω nominal impedance and a 3W power rating, and comes with a U.FL connector type and 93mm cable length for easy integration.

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
 ISO 14001: 2015 certification of environmental management system.
 OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
