

Rectangular NFC 25x20 Antenna

PID: MIKROE-4002

Rectangular NFC 25x20 Antenna is PCB antenna designed with the intention to be used as extension of development boards and placed remotely on desired place such as plastic casing, existing products, or even under displays. Antenna is designed in rectangular shape with dimensions 25x20 mm. Its important to mention that this antenna can be used for NFC and RFID applications that works on 13.56 MHz frequency.
