12 W Low profile Modular DC Power Supplies for electrical cabinets

Type 78.12...1200

- Output 12 V DC, 12 W, 1.25 A

Type 78.12...2400

- Output 24 V DC, 12 W, 0.63 A

- Designed for SELV system (EN 60950)
- 17.5 mm (1 module) x 61 mm deep
- Low stand-by power consumption
- Thermal protection: internal, with V_{out} shutdown - power OFF to reset
- Short circuit protection: Hiccup (auto-recovery) mode
- Overvoltage protection: Varistor
- Flyback topology
- Compliant with EN 60950-1 and EN 61204-3
- Parallel working for automatic redundancy - with OR diodes
- Dual Polarity and Series connection permissible
- 35 mm rail (EN 60715) mount

78.12
Box clamp

For outline drawing see page 37

78.12...1200

- 12 V DC, 12 W output
- SELV
- General use for 12 V DC load

78.12...2400

- 24 V DC, 12 W output
- SELV
- General use for 24 V DC load

12 W Low profile Modular DC Power Supplies for electrical cabinets

Type 78.12...1202

- Output 12 V DC, 12 W, 1 A
- Modular LED driver for stripes and up to 12 W
- Suitable for general use (15 W - 40 °C, 12 W - 45 °C)

Type 78.12...2402

- Output 24 V DC, 12 W, 0.5 A
- Modular LED driver for stripes and up to 12 W, TUV certified following IEC61347-2-13
- Suitable for general use (15 W - 40 °C, 12 W - 50 °C)

- Designed for SELV system (EN 60950)
- 17.5 mm (1 module) x 61 mm deep
- Low stand-by power consumption
- Thermal protection: internal, with V_{out} shutdown - power OFF to reset
- Short circuit protection: (auto-recovery)
- Overvoltage protection: Varistor

Approvals (according to type)

Industrial Single phase Switch Mode DC Power Supplies: 240 W and 480 W

Type 78.X1

- Output 24 V DC, 240 W

Type 78.Y1

- Output 24 V DC, 480 W

- High efficiency (up to 92%)
- Low stand-by power consumption
- Active PFC
- DC output voltage adjustable
- Short circuit protection with hiccup auto-recovery
- Thermal protection with auto shutdown
- High peak current up to 30%
- Boost current up to 30% for 3 s (depending on version)
- Overvoltage protection: Varistor
- Compliant with IEC/EN 62368-1, UL 61010
- Parallel working for increased load current (with external diode) or redundancy
- 35 mm rail (EN 60715) mount

78.X1/78.Y1

* (see derating diagrams L78)

**Industrial Switch Mode DC Power Supplies:
120 W to 240 W**
Type 78.1A

- Output 24 V DC, 120 W
- High efficiency (up to 92%)

Type 78.2A
High efficiency PSU with high peak output current and low stand by power consumption

- Output 24 V DC, 240 W
- High efficiency (up to 94%)
- LLC topology
- Thermal protection internal, power OFF to reset
- Boost current: Without time limit
- Low stand-by power consumption (< 1 W)
- Short circuit protection: Hiccup (auto-recovery) mode
- Overvoltage protection: Varistor
- Compliant with EN 60950-1 and EN 61204-3
- Parallel working for increased load current (with OR diodes)
- Dual Polarity and Series connection permissible
- 35 mm rail (EN 60715) mount

- Double stage with active PFC (Power Factor Correction)
- Directly parallelable thanks to the internal clock

* (see derating diagrams L78)

Ordering information

Example: 78 series switch mode power supply, 36 W - 24 V DC output, supply voltage 110...240 V AC, embedded fuse and output voltage regulator.

Series

Power

- 12 = 12 W output
- 25 = 25 W output
- 36 = 36 W output
- 50 = 50 W output
- 60 = 60 W output
- 1A = 120 W output
- 2A = 240 W output
- 1B = 120 W output
- 1D = 130 W output
- 2E = 240 W output

Voltage conversion

- 1 = AC/DC input, DC output
- 1 = AC input, DC output (78.1A, 78.2A)

Input voltage

- 230 = 110...240 V AC / 220 V DC
- 230 = 110...240 V AC/DC
- 230 = 120...240 V AC / 220 V DC
- 230 = 120 or 230 V AC adjustable (78.2A)

D:

- 0 = Standard
- 2 = Embedded fuse + output voltage regulator (without voltage regulator for 78.12)
- 3 = Replaceable fuse + output voltage regulator
- 4 = Fuse + regulator + positive logic contact
- 5 = Fuse + regulator + pre-alarm contact

C:

- 0 = Standard
- 1 = Double stage, with PFC (Power Factor Correction)
- 8 = Power supply for OPTA PLR, 8A series

AB:

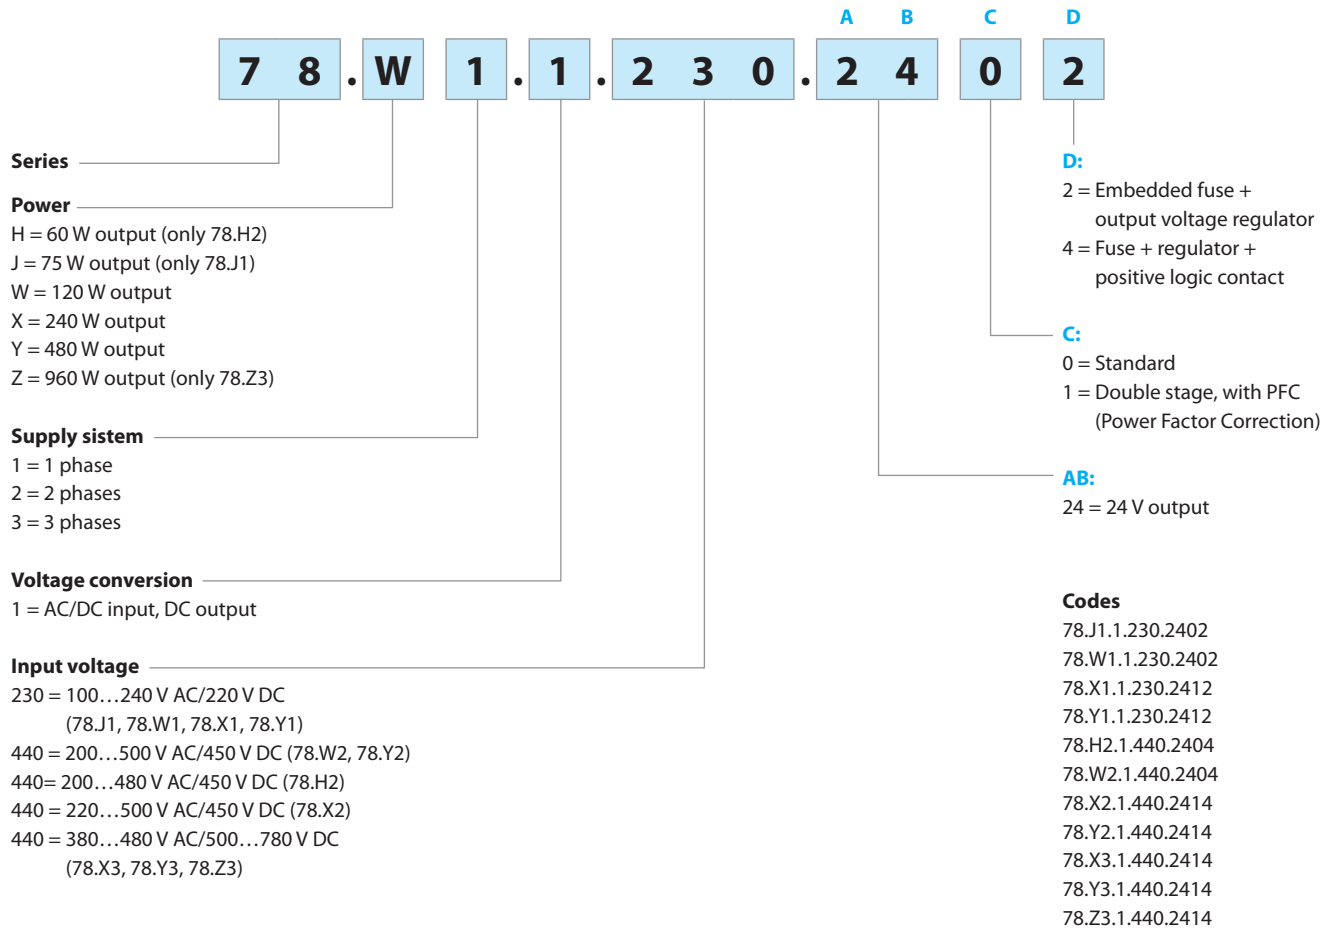

- 12 = 12 V DC output
- 24 = 24 V DC output

Hiccup mode

Under normal conditions, the 78 Series Power Supply supplies the current required by the load.

However, under abnormal conditions such as a short circuit or heavy overload (T_0) the output voltage will be rapidly reduced to zero - followed by the current (T_1). After approximately 2 seconds (T_1 to T_2), the power supply checks for the persistence of the anomaly over the time period T_2 to T_3 (30 to 100ms - dependent on the type of anomaly). If the anomaly persists, as shown above, the current is again reset to 0 A for a further 2 s (T_3 to T_4). This "hiccup" process is repeated until the anomaly is removed (T_n), whereon the power supply then returns to normal working.

78.1B is able to handle this anomaly for 15 s. After this time it enters in protection mode, and a manual reset is necessary by removing and re-applying the supply voltage

Fold-back technology and battery charging

Fold-back technology allows load current to be maintained under conditions of heavy overload. In case of heavy overload, the fold-back circuit will provide the output current and the output voltage, in accordance with the relevant "FB" diagram. In practice, when overcurrent is drawn by the load, the fold-back circuit reduces the output voltage supplying the current up to the maximal value, then it starts to work in hiccup mode. Also in case of short circuit, the power supply will work in hiccup mode. Both these conditions end when the anomaly is removed, and the power supply returns to normal working.

The fold-back mode allows the use of the power supply as a **battery charger**, in particular 78.36/50/60 for charging lead acid batteries (both standard and gel types) rated 7...24 Ah and 78.1D for charging lead batteries rated 17...38 Ah. In any case, it is necessary to verify that the charging characteristics of the batteries are compliant with the output characteristics of the power supply.

It is suggested to insert a diode in series between the + output and the + input of the battery (if not already installed in the battery unit).

Back-up connection for mains interruption

When the mains is ON, the power supply is able to charge the battery and supply the load at the same time (the power supply must be rated minimum 110 % of the load). When the mains is OFF, the battery starts to supply the load.

FB78-1 Output voltage v output current (78.50)

FB78-2 Output voltage v output current (78.60)

FB78-3 Output voltage v output current (78.1D)

Fold-back characteristic for ambient temperature up to 50 °C

78.1D, 78.2E LED table

Feedback contact switching mode: Type 78.xx.x.xxx.24x4 ("positive logic")

The NO contact closes when power is applied to the unit and remains closed unless there is a serious fault preventing the power supply unit from delivering output current. (Such as a broken fuse, power supply failure, short-circuit or thermal protection.)

This version is suitable, for example, for signalling to a remote PLC all those alarms representing a service interruption of the power supply output.

Type	Area	State	LED	Contact 13-14	
78.1D.1.230.2414 78.2E.1.230.2414	*	OK	DC OK ALARM	 OFF	
	**	Overload (78.1D only)	DC OK ALARM	 OFF	
	***	Short circuit	DC OK ALARM	 OFF	
		Thermal limit	DC OK ALARM	 	
		Thermal protection [#]	DC OK ALARM	OFF 	

[#]Remove the supply voltage, following the intervention of the thermal protection, in order to reset the power supply.

78.1D, 78.2E LED table

Feedback contact switching mode: Type 78.xx.x.xxx.24x5 ("pre-alarm")

The NO contact closes when an anomaly happens (Overload, short circuit, thermal limit, thermal protection).

This version is suitable, for example, for activating visual or audible alarms, or to activate a cooling fan.

Type	Area	State	LED	Contact 13-14	
78.1D.1.230.2415 78.2E.1.230.2415	*	OK	DC OK ALARM	 OFF	
	**	Overload (78.1D only)	DC OK ALARM	 OFF	
	***	Short circuit	DC OK ALARM	 OFF	
		Thermal limit	DC OK ALARM	 	
		Thermal protection [#]	DC OK ALARM	OFF 	

[#]Remove the supply voltage, following the intervention of the thermal protection, in order to reset the power supply.
