

04-Nov-2025

PCN #: PCN-25-259201

Subject : PT relay

Description of Change : Please be aware of the upcoming cosmetic changes to the listed part numbers (not affecting the function of the product).

The design of the mechanical lever used in the relay assembly has been modified. The lever color will vary between blue and red depending on whether the relay is equipped with a DC or AC coil. As part of this update, the previous printed red and blue color codes on the relay housing will be eliminated.

Reason for Change: The change has been implemented to standardize component manufacturing, as well as to simplify visual identification between DC and AC coil variants. The removal of printed color codes eliminates an additional production step, contributing to improved process efficiency and consistency in appearance.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
