

Solid State Relays

System Monitoring Relays (Sense Relay)

Type RA.... ..S

- System (line and load) monitoring relay
- Zero switching
- Rated operational current: 25, 50 and 110 AACrms
- Rated operational voltage: 230, 400 and 480 VACrms
- High surge current capability
- Alarm output signal
- LED indication for alarm and supply

Product Description

The system monitoring solid state relay (sense relay) provides an alarm output in the event of a circuit failure. Internal circuits monitor:

- line voltage/line current
- correct functioning of the SSR
- SSR input status

The relay is designed for applications where immediate fault detection is required. A red LED indicates an alarm, a green LED indicates DC control supply OK (half LED light intensity) resp. relay switched ON (full LED light intensity).
