

Visual Signals **XENON** **BEACONS**

Industrial Xenon Beacons > X195 Series

Product overview

The X195 Series utilises a discharge capacitor and converter circuit to ignite xenon gas inside a tube, resulting in a brilliant flash of light. Xenon gas ignites virtually instantaneously so maximum brightness is obtained immediately. Xenons

have an added advantage of low current consumption combined with a reasonable life span. Xenon beacons are one of the most efficient, effective and brightest visual signals available. The X195 series offers shallow base and deep base options - the deep base version having side entry as well as bottom entry. Synchronized version available.

Features

Continuously rated

Suitable for surface or wall mounting

Suitable for use with conduit BESA box

M20 side entry [deep base only] or bottom cable entry

IP65

Material

UV Stable Polycarbonate Lens
ABS Plastic Base
